Eminem

Yeah, Stat Quo, Doc Dre
I representin' the A town, A town
I'm comin' from the A town, A town
Shady Aftermath Yeah, once again it's on
Em, Stat now alive form the A town on
The girls get naked soon as the song comes on
The folk get reckless it's off the chain it's on It's papa speakers knockin' crowds off the floor
They jockin' and watchin' when I walks through the door
It's him tell a friend but you already know
Act stupid and lose it [Incomprehensible] with Quo I'm kind of different heed not the usual
Sippin' cognac between two beautiful
[Incomprehensible] at the club talk ***** at your funeral
I came to get a buzz and crunk understand yo It's crowded in back, he's jumpin', ***** it's slow
I'm cooler than cool 'cause my temperature is thirty below
I'm checkin' the scene for new cunt doppin' it low
Shakin' they ass, backin' it up, fast or slow You know this thing don't stop till I say so
Now get low, get low, keep that ***** on the floor
You know this club don't close till I say so
Now get low, get low, keep that ***** on the flow Yeah, now get low, get low, keep that ***** on the floor
