

\$20

Low

A heart that won't burst
And lips that don't thirst
I thought of you first My love is for free, my love
My love is for free
My love is for free, my love
My love is for free The breath of a bird
A voice never heard
But you knew every word My love is for free, my love
My love is for free
My love is for free, my love
My love is for free The dream is enough
The price is too much
But it's nothing to us My love is for free, my love
My love is for free
My love is for free, my love
My love is for free
