

# Say It (feat. Tommy Dorsey and His Orchestra)

## Frank Sinatra

Say it over and over again, over and over again  
Never stop saying you're mine  
Say it, ever and ever so sweet, ever and ever so sweet  
Just like an old valentine When you say I love you, the same old I love you  
They whisper in stories and plays  
You can change I love you, the same old I love you  
To oh such a heavenly phrase So say it, softly and gently and then, over and over again  
Never stop saying you're mine
