Blood On the Dance Floor

Feel the darkness on the rise
The dawn of your demise
(The dawn of your demise) You got no heart
You're a savage
Supreme Havoc Lead you to the gallows
The x-men awaits
With one blow to your heart, your love will fall apart
(Will fall apart now) Hocus Pocus
Tragic Magic
Put this dance floor in a panic If she hollers let her know
Wine her up and watch her go
Woah oh oh oh
We're the ones you were warned about
Woah oh oh
Fuck with us, We'll take you down
Woah oh oh
Smile in your face just to piss you off
Woah oh oh
We run this shit and we can't be stopped. All this sexual violence is my faith
I'll drag you to my hell and lead you to the gates
(And lead you to the gates) My demons are screaming
It's getting loud
No longer will I hide
Let it all out
(Let it out)
Hocus Pocus
Tragic Magic
Put this dance floor in a panic
If she hollers let her know
Wine her up and watch her go Hocus Pocus
Tragic Magic
Put this dance floor in a panic
If she hollers let her know
Wine her up and watch her go Woah oh oh oh
We're the ones you were warned about
Woah oh oh
Fuck with us, We'll take you down
Woah oh oh
Smile in your face just to piss you off

Woah oh oh

We run this shit and we can't be stopped.

(Can't be stopped)
