

Don't Come Close

Thea Gilmore

You know it's generally known
You got everything at home
Kisses out of desperation
Bring you more aggravation
And you don't come close
You don't come close
You don't come close You bring out your souvenirs
Soak them wet with your tears
You lose your imagination
Out of more aggravation
And you don't come close
You don't come close
You don't come close You turn red with rage
But act your age
The only thing that your regret
You need more time to forget Well, you know it's generally known
You got everything at home
Kisses out of desperation
Bring you more aggravation
And you don't come close
You don't come close
You don't come close
