Nature Feels

Frank Ocean

I've been meaning to fuck you in the garden
Been breathing so hard we both could use the oxygen
Just hop on my back i'll take you down the stairs
Into my backyard and lay you right on the grassGive it you over again
Over again over again
Over again over again
Over again over againMaking love
Underneath the cherry leaves
Babygirl
Tell me how my nature feels
Said aww baby (oh)
Up against the cherry tree
babygirl (baby, baby)
I'll give it to you naturallyNaturally ohhFeeling like adam when he first found out this existed
Me and my eve trying out our first positions
And it's all good
And it's all free
And it's all you
And it's only me
Playing in the dirt
Wrestling myself inside youGive it you over again
Over again over again
Over again over again
Over again over againMaking love
Underneath the cherry leaves
Baby girl
Tell me how my nature feels
Said aww baby (oh)
Up against the cherry tree (oh)
Baby girl
I'll give it to you naturally (aww)My cavewoman
Imma caveman
Doing wild things
In a wild land
We keep going baby
We keep getting it baby
We'll get pebbles maybe
A couple bam bams
Bam bam bang bang

Girl you heart goes bam and bang
Feel my heart go go goFeel Now
Can let you feel now
Do what you feel now
Can let you feel now
Do what you ...
