a roulette, letâ€™s get shootinâ€™

The 47 Goonz recruitinâ€™, join or die

We coming for groups of guys in suits and ties

Who chose to hide truth from the eye

Grab a white collar by his white evil eye

Fight or flight yo, thatâ€™s just what it is

When you see a pig, hit him in his baby back ribs

But donâ€™t trip

Iâ€™m just another black kid, caught up in the mix

Trying to make a dollar out of 47 cents

Yo this shit is intense

A dumb cop stoppinâ€™ me, probably

Because heâ€™s still living in the past tense

How shit was back then

They wanna see the downfall of all black men

An African, I was sent to put action in

But what's new when the po keep flashing in

News flash niggas

Get a news flash

What's my name? What's my name?

Badmon

What's my name? What's my name?

Badmon

What's my name? What's my name?

Badmon

What's my name? What's my name?

Badmon

What's my motherf

These niggas ain't ready for the war

Know what I'm 'bout, cut the cheddar, close your drawer

Please put your bread up

We ain't gonna settle for no iceberg lettuce

Let us eat when there's war

Or end up like venison meat in the street

Dear, you're not ready for beef

Let the fish burn in the pot, niggas all in the spot

When it turns 12 'o clock then, we'll be curvin' the block

Yo cut this shit

Man I'm the best in the sector

Get your ear buds to grip, then I dissect ya

Inject ya with my lethal weapon

Plant a mine in the deepest section, guess who's least expected

Mothaf

---

a please respect it

The last one to pull my card was easily dealt with

They felt it, the shift, records can't be reckoned with

On tracks wreckin' shit, ask me why I'm reckless

Break a wrist, approach my demo with

Brought my demo listens, I'm a demolition specialist

I got the blueprint to this shit, Jay to the Oh Vee

If Blue was a prince, I'm still Joseph Kony

Niggas know they can't ever little bro me

No matter how big they blow, they still a little below

It's the P-R-O E-R-A, indigo with the killer flow

Guaranteed the realest that you ever saw

What's my name? What's my name?

Badmon

What's my name? What's my name?

What's my name? What's my name?
