

# Extreme Conditions

## Mortification

Extreme conditions demand extreme responses

    We'll not die, we will stand on high

    Prayful warfare, leaves us reigning

Extreme conditions, blasting furyUnder the hideous spell, masses are tormented

    Under the fate of death, heathen are burning

    Seek the way of life, Christians are forgiven

He died to save us, bringing us to HeavenExtreme conditions demand extreme responses

    We'll not die, we will stand on high

    Prayful warfare, leaves us reigning

Extreme conditions, blasting furyThe gates are open wide, millions trudging forth

    Satan rises laughing, taking the young ones

    Close the gates in your life, look to the Master

See the blood is dripping, salvation through the crossRevived

    Forever

    Glorious

EternalExtreme conditions demand extreme responses

    We'll not die, we will stand on high

    Prayful warfare, leaves us reigning

Extreme conditions, blasting furyAs you smash the evil, grab hold the endless flame

    Holy spirit burning, inside your soul unchained

    Feel the peace and power, flowing through your blood

There's no fear of death, Satan has been crushedRevived

    Forever

    Glorious

EternalExtreme conditions demand extreme responses

    We'll not die, we will stand on high

    Prayful warfare, leaves us reigning

    Extreme conditions, blasting fury
