

Fever

Erin Mccarley

I use to stand in this maze
I feel very naked
Like a wolf in a cage
I start to celebrate
The one thing I can't taste
I can't taste anymore

Planning how to rise
Out of this pile of ashes
But I'm heavy
I'm no phoenix
I'm tide up with sadness

It's a game with a ghost
A ghost that won't go away

Fever
Light me up
Your way
Panic
Rushes out my veins

What can I do about it?
I just can't live without it
What can I do about it?
I just can't live without it
Ah ah ah

With my legs off the edge
And underneath I'm glowing
Feel the force
I'm alive
Can't say I'm undergoing
All the classic signs
To make a better place

Eyes forgot me
It plays out in this lullaby-ize
In the tides is the winds
And that's what lives inside

All the magic and beauty
Can't put out the fire

Fever
Light me up
Your way
Panic
Rushes out my veins

What can I do about it?
I just can't live without it
What can I do about it?
I just can't live without it

No wonder, where you round it
I just can't live without it
What can I do about it?
I just can't live without it

La la la woah woah
La la la woah woah
La la la woah woah
La la la woah woah
La la la woah woah
La la la woah woah

Fever
Light me up
Your way
Panic
Rushes out my veins

What can I do about it?
I just can't live without it
What can I do about it?
I just can't live without it

No wonder, where you round it
I just can't live without it
What can I do about it?
I just can't live without it

What can I do about it?
What can I do about it?
