

Into the Silence

Robbie Williams

When karma reaches you I wanna be there just in case it needs help
You made me be so cruel to myself
The love of power or the power of love?
You need help When karma reaches you I wanna be there to catch that fall
Get down beside you and watch you crawl
How does it feel to be alone?
Down there If you fall apart again
It won't break my heart If I told you my secrets
You'd never look at me the same way
Well I guess you're right, some things I can't change
When karma reaches you I wanna be there just in case it needs help
I won't fall apart again
Don't test my heart Is there any wonder
With this sadness inside us?
Was it send for the hunger?
Was it made to divide us? Into the silence
Into the silence
Into the silence
Into the silence When karma reaches you I wanna be there to catch that fall
Get down beside you and watch you crawl
How does it feel to be alone?
Down there Don't fall apart again
Don't test my heart
Is there any wonder
With this sadness inside us?
Was it send for the hunger?
Was it made to divide us? Into the silence
Into the silence
Into the silence
Into the silence
