

Awff

Graham Saber

ohhhhhhh

you gave up on me, you gave up on me

its like you grew up, grew up and turned away from me
its like you finally stood up, stood up demanded more from me

is this really all we were fighting for

is it really all we were fighting for

is it really all we were fighting for

right now

just to walk away from me x6

and God has got plans much bigger than mine but oh how I miss you

and I cant see inside of His mind but oh how I try too

and God has got plans much bigger than mine but oh how how I miss you

and I cant see inside of His mind but oh how I try too

I feel lied too

its like it quickly blew up, blew up, I walked away again

and now your feelings all up, all up and I cant even pretend

that this is really all we were fighting for

this is really all we were figthnig for

tell me is it really all we were fighting for

right now

just to walk away from me x6

and God has got plans much bigger than mine but oh how I miss you

and i cant see inside of His mind but oh how I try too

and God has got plans much bigger than mine but oh how I miss you

and I cant see inside of His mind but oh how I try too

I feel lied too

walk away walk away

knowing what we know

walk away walk away

knwoing,knowing what we know

walk away walk away

knowing that we know

walk away walk away

knowing what we know

just to walk away from me x3

and God has got plans much bigger than mine but oh how I miss you

and I cant see inside His mind but oh how I try to

and God has got plans much bigger than mine but oh how I miss you

and I cant see inside of His mind but oh how I try too
I feel lied too
