

Green Grass

Tanlines

Green grass say it's true
Cause I've got my eyes on you
Don't wait till it's over, don't wait till it's over
Stand on dry land, watch it wash away.
Spend a long time watching light of dayCause there are a lot of waves there
I don't have a plan, I don't know why
Well there are a lot of things there I don't understand, I don't know whyCause there are a lot of waves there
I don't have a plan, I don't know why
Well there are a lot of things there I don't understand, I don't know whyGreen grass sky so blue cause I thought
something through
Won't wait till it's over
Won't wait it's not over
Stand on dry land, watch it wash away
Spend all night waiting for the light of dayCause there are a lot if waves there
I don't have a plan, I don't know why
Well there are a lot of things there I don't understand, I don't know whyCause there are a lot of waves there
I don't have a plan, I don't know why
Well there are a lot of things there I don't understand, I don't know whyCause there are a lot if waves there
I don't have a plan, I don't know why
Well there are a lot of things there I don't understand, I don't know why
I don't have a plan, I don't know why
Well there are a lot of things there I don't understand, I don't know why
