

Thief

Ookay

Like a thief in the night
I'm coming for your heart
I'm coming for your heart
This time it's anything goes
I guess I'm just a selfish ghost

I know you're scared
because somebody told you I was up to no good
but i'll be here
waiting for the chance to take you out this neighborhood
there's a whole wide world for us to see
the only thing you gotta do is follow me

Like a thief in the night
I'm coming for your heart
I'm coming for your heart
This time it's anything goes
I guess I'm just a selfish ghost
