New Generation

Buck-O-Nine

we're the new generation
we're keepin' the faith
the promise of life
and the human race
the powers of the country
will soon be in our hands
with a new set of people
talkin' different stands
a positive attitude is what we need
to keep life going strong
for our generation to succeedwe're the new generation
we're standing tall
we're the new generation
and we'll never fall
we're the new generation
it's fast and loud
we're the new generation
and we're proudwhen i first started
out i couldn't see
an image of life or
how it would be
i always wanted to
live in the past
but i'm living for now
and learnin' from the past
a positive attitude is
what we need
to keep life going
strong for our
generation to succeed
