One Shot

Rob Thomas

Everybody wanna get high again and play it all night long
Everybody get a little wild and then they turn and go back home
But I say why? why?
Everybody, let's turn it up again, I wanna hear that song
Then I'm gonna fly like Superman, I'm feeling so far gone
So tonight, let's rideWe get one shot to get it right
We get one shot, so hold on tight
We get one shot, so let it ride
We get one shot to live your life
We get one shot to go all night
We get one shot, so let it rideEverybody's got a little love to give, let's give it all we got
I don't wanna feel all weighted down, let's hit it while it's hot
And burning bright, bright
I know you know exactly what I mean
Too fast, too slow, there ain't no in-between
So tonight, let's rideWe get one shot to get it right
We get one shot, so hold on tight
We get one shot, so let it ride
We get one shot to live your life
We get one shot to go all night
We get one shot, so let it rideI say we let it rideI know everything could fall apart
We get one chance to make this kickstart
Turn on your light
'Cause we are made of stars
And I wanna let it shineEverything's gonna be alright, I feel it in my bones
And if it takes all night, I'm bleeding water from this stone
So tonight, tonight
Let's rideWe get one shot to get it right
We get one shot, so hold on tight
We get one shot, so let it ride
We get one shot to live your life
We get one shot to go all night
We get one shot, so let it rideI say we let it ride
I say we let it ride
