

At the End of All Days On Earth

Los Halos

Of your love, so sweet
I am in need to your heart
So blue, I am so true

I am so true
I am so true

And while I sleep
I am so dear
and dreams of light
Where I am so bright

I am so bright
I am so bright

When you're up, you're down
When you're up, you're so down

It gets so lonely that you're almost real
It gets so lonely that you're almost real
It gets so lonely that you're almost real
It gets so lonely that you're almost real
I get so lonely that you're almost real
I get so lonely that you're almost real
I get so lonely that you're almost real
I get so lonely that you're almost real

And while I sleep
I am so
