Big Black Gun

Simian

Ain't got a heart just a big blood clot
Ain't got a heart just a big blood clot
And it's all for youAin't got a soul just a big black hole
Ain't got a soul just a big black hole
And it's all for youSo don't worry baby, 'cause everything will be alright
When they come looking for you
I'll be pointing at them with a big black gunAin't got eyes got a burning fire
Ain't got eyes got a burning fire
And it's all for youAin't got hope got a sea of desire
Ain't got hope got a sea of desire
And it's all for youSo don't worry baby, 'cause everything will be alright
When they come looking for you
I'll be pointing at them with a big black gunBig black gun, big black gun
I'll be pointing at them with a big black gun
Big black gunSo don't worry baby, 'cause everything will be alright
When they come looking for you
When they come looking for you
When they come looking for you
I'll be pointing at them with a big black gun
