

Fireworks (feat. Paul Aiden)

Markus Schulz & Klauss Goulart

Lets runaway together in the night
Nothing could stop the love I feel tonight
I know you like it just give it a try
There's something coming in the air today
So pack your things with me and runaway
I wish your worries in your head would fadeCause there could be fireworks

If you'd understand
We'll never in a fantasyland
There could be fireworks
If you'd only understand
Your better is a fantasyland
Is a fantasyland

Is a fantasylandLets runaway together in the night
Nothing could stop the love I feel tonight
I know you like it just give it a try
There's something coming in the air today
So pack your things with me and runaway
I wish your worries in your head would fadeCause there could be fireworks

If you'd understand
We'll never in a fantasyland
There could be fireworks
If you'd only understand
Your better is a fantasyland
Is a fantasyland

Is a fantasyland
There could be fireworks
If you'd only understand
Your better is a fantasylandIs a fantasyland
Is a fantasyland
