You Will Soar

Scott Stapp

If I had just one thing to say
Before my last breath fades away
Keep your head way up in the clouds
And never let them get you down
Never let them get you down
Keep hoping and dreaming and you will soar
With a little faith and love
You will soar
If I had just two words to say
To explain my life away
I could say ups and downs
Because, I always kept my defense down
Always kept my defense down

Keep hoping and dreaming and you will soar
With a little faith and love
You will soar
I wish I could take you away
To a place of mystery
We will travel there on sands of time
To listen to fairy tales
We will listen to fairy tales
We will listen, listen, listen
Keep hoping and dreaming and you will soar
With a little faith and love
You will soar, you will soar, you will soar
