

I Was Terrible

How to Dress Well

I don't wanna wait, I won't hesitate
I wanna call the President and say what's right
Just record it on video tape so you can fall asleep
Let it play all night
I don't wanna wait, I won't hesitate
I wanna call the President and say, 'It's Tom-
I need to make a change tonight so make it right what was wrong those times.' Know, know I will find a way
Know, know love will find a way But time is set in stone, no
I was terrible
And I won't deny that
Said no
I was terrible
And I won't deny that, can't deny that
Love, when you're slipping away
I will find you and bring you home
If you feel anxiety
You're so much stronger than you know That won't go, no that won't go
No that won't go
No that won't go
That won't go, no that won't go
No that won't go, no that won't go
No that won't go, no that won't go I don't wanna wait, I won't hesitate
I wanna call the President and say what's right
Just record it on video tape so you can fall asleep
Let it play all night
I don't wanna wait, I won't hesitate
I wanna call the President and say it is time
Tell you this right now
So we can celebrate by the chorus line
Know, know love will find a way
Know, know love will find a way But time is set in stone, no
I was terrible
And I won't deny that
Said no
I was terrible
And I won't deny that, can't deny that Love, when you're slipping away
I will find you and bring you home
If you feel anxiety
It's so much stronger than you know Won't deny that, can't deny that

Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
Won't deny that, can't deny that
