The Rescue

Kutless

I don?t know what?s happening
Everything around me has come crashing to the ground
It?s here I see my need
In all the devastation I?m praying for a miracle
Help me to escape again
My life is a mass destruction
You?re pulling me from the mess I?m in, you take me away
There?s glass in the air I?m breathing
Somehow my heart keeps beating till you take me away
Will you send an angel
A ray of sunlight shining through the darkness of my world?
That's falling down on me
You are my salvation, the only one to rescue me
From the torment that I?m in again
My life is a mass destruction
You?re pulling me from the mess I?m in, you take me away
There?s glass in the air I?m breathing
Somehow my heart keeps beating till you take me away
Goodbye my hurting, goodbye my needing
Goodbye my worries, goodbye to all of my bleeding
My life is a mass destruction
You?re pulling me from the mess I?m in, you take me away
There?s glass in the air I?m breathing
Somehow my heart keeps beating till you take me away
You take me away
