Let's Make Out

Does It Offend You, Yeah?

[Chorus]
Let's make out, let's make out, let's make out, let's make out [Repeat x4]

Too many legs under the table.
Too many reasons for trouble.
Have I got a girlfriend and
Does she get real mean?
Yes she does, yes she does

If the feeling's right you can see it..
It's the same, don't hurt
If you can't stop yourself when you feel it
Oh.

I can't control myself
When I see you there's no one else
When I get down all by myself
You're the one that I think about

I can't control myself
When I see you there's no one else
When I get down all by myself
You're the one that I think about

[Chorus]

Too many legs under the table.
Too many reasons for trouble.
Have I got a girlfriend and
Does she get real mean?
Yes she does, yes she does

If you can't feel your hands on the ceiling
From the clapping on the floor.
You can't stop yourself when you feel it
Oh

I can't control myself
When I see you there's no one else
When I get down all by myself

You're the one that I think about

I can't control myself
When I see you there's no one else
When I get down all by myself
You're the one that I think about

[Chorus]

I'm in love with you, my baby girl, I'm in love with you [Repeat x4]

Too many legs under the table.
Too many reasons for trouble.
Have I got a girlfriend and
Does she get real mean?
Yes she does, yes she does

Too many legs under the table.
Too many reasons for trouble.
Have I got a girlfriend and
Does she get real mean?
Yes she does, yes she does

Too many legs under the table.
Too many reasons for trouble.
Do I have a girlfriend and
Does she get real mean?
Yes she does, yes she does ha ha!

Too many legs under the table.
Too many reasons for trouble.
Do I have a girlfriend and
Does she get real mean?
Yes she does, yes she does

...

OK that was great but uh, do it again?
Hahaha no
