

# No Thoughts

## Cloud Nothings

It's hard to know in a generation  
Though it sounds  
Hard to hear what you're trying to say when  
Words are far too loud I don't like that sound  
Can't stop but nothing changes You don't even say  
I don't even talk about it  
You don't really say  
I don't even talk about it  
You don't really say  
I don't even talk about it  
You don't really say  
I don't even talk about it, no It's hard to move in a generation  
Though it sounds  
Hard to hear what you're trying to say when  
Words are far too loud I don't like that sound  
Can't try but nothing changes You don't really seem to care and  
I don't even talk about it  
You don't really seem to care and  
I don't even talk about it  
You don't really seem to care and  
I don't even talk about it  
You don't really seem to care and  
I don't even talk about it, no You're falling, you're gone You don't really seem to care and  
I don't even talk about it now
