Put It Back Together

Fatboy Slim

I was moving forward From the point I've come from

I was rolling lowly

This is our song nowI was moving forward

From the point I've come from

I was rolling lowly

This is our song nowGotta see it, nothing means I gotta

Gotta feel it, everything is out

Gotta hold out, everything is out

Gotta day in out, just invite themGotta bore them, till I take us out

Gotta feel that, every single line

Gotta clean it out to side

When we're out down and outPut it back together

Put it back together

Put it back together

Put it back together

Put it back together Yeah, yeah, yeah

Yeah, yeah, yeah

Yeah, yeah, yeahBurning down the city

Warning out of something

But I need to find it

'Cause I got no sun downDug a whole was so fun

And a taste that's floating

What it doesn't meet no

Place to silent sleep nowGotta feeling, doesn't mean I sad

Because I love me everything around it isn't

Better if you sing it loud and I

Jam myself to dawnI got so much dissing at the side and

When it's just another ride and you

Sow yourself to the cat

Bet it [Incomprehensible]Put it back together

Put it back together

Put it back together

Put it back together

Put it back together Yeah, yeah, yeah

Yeah, yeah, yeah

Yeah, yeah, yeah
