

It's Getting Better (Man!!)

Oasis

Say something shout it from the rooftops of your head
Make it sort of mean something make me understand
Or I'll forget
The people here on life's beaches
They wish upon the waves that hide the sand
Let them know that life teaches you
To build a castle in your hand Maybe the songs that we sing are wrong
Maybe the dreams that we dream are gone
So bring it on home and it won't be long
It's gettin' better man! [Chorus]
Hey! What was that you said to me?
Jus' say the word and I'd be free?
And where the stars are shining bright
It's gettin' better man!
And crashing in upon a wave
It's calling out beyond the grave
And we're the fire in the sky
It's gettin' better man! Build something build a better place and call it home
Even if it means nothing you'll never-ever feel that you're alone
