

Chances (feat. Chief Keef)

Young Scooter

Every damn day I'm taking chances, every dam day I'm taking chances
Anything happen I got handlers, I'm addicted to this gambling
Gambling with my life, I'm gambling with my life
I'm gambling with my life, I'm gambling with my life
Every damn day I'm taking chances cause I'm addicted to this gambling
Addicted to these streets, diamonds and money
Taking chances for my kids, cambien money
Stomach full of freebands but I jugg like I'm hungry
Even if I ain't got no bands I still look like money
I finesse you out your cash then dress up like I'm homeless
Niggas still screaming drought when birds everywhere floating
You take a chance, you fuck with me, I hate when you buss it open
I'm selling wet, it wont lock, I got juggs in motion
Gotta sell it how it look, it'll crumble up on you
36's look like books, you get 7 for 100
Jugg with these OG bosses, I don't be around runners
Never think about a loss, I just keep getting money
Every damn day I'm taking chances, every dam day I'm taking chances
Anything happen I got handlers, I'm addicted to this gambling
Gambling with my life, I'm gambling with my life
I'm gambling with my life, I'm gambling with my life
Every damn day I'm taking chances cause I'm addicted to this gambling
Taking chances, taking chances, taking chances
Bitch, I'm shining from my wrist up to my necklace,
God came and got me, bless me hachoo
Glow gang posted like a statue
Taking chances having this bitch in my hotel
But my niggas with me rolling like a ferris wheel
Taking chances having this pipe up in my car
But I rather get caught with then without it
Taking chances, no security everywhere I go
It's me and Glow, no security at my show
Taking chances, I got all my jewelry on
Taking chances, something long up in my chrome
Every damn day I'm taking chances, every dam day I'm taking chances
Anything happen I got handlers, I'm addicted to this gambling
Gambling with my life, I'm gambling with my life
I'm gambling with my life, I'm gambling with my life
Every damn day I'm taking chances cause I'm addicted to this gambling

My momma mad at me cause I gamble too much
I had 200 000 in high school but I fucked it all up
I took a chance on the road just to run it back up
And then these niggas starting snitching, I had to switch my route up
I dry my own packs, I love gambling
Shooting dice, I done throwed my whole hand in
A free 75 000 I done cashed in
Police get behind me, I be smashing
Seven days a week I'm taking chances
I can't get no sleep, I keep on gambling
Lost 20 bricks last week, but I can stand it
But one a quarter million bet no can
Every damn day I'm taking chances, every dam day I'm taking chances
Anything happen I got handlers, I'm addicted to this gambling
Gambling with my life, I'm gambling with my life
I'm gambling with my life, I'm gambling with my life
Every damn day I'm taking chances cause I'm addicted to this gambling
