Transcendental Blues

Steve Earle

In the darkest hour of the longest night
If it was in my power I'd step into the light
Candles on the alter, penny in your shoe
Walk upon the water transcendental bluesHappy ever after 'til the day you die
Careful what you ask for, you don't know 'til you try
Hands are in your pockets, starin' at your shoes
Wishin' you could stop it transcendental bluesIf I had it my way, everything would change
Out here on this highway the rules are still the same
Back roads never carry you where you want 'em to
They leave you standin' there with them ol' transcendental blues
