A Gift For Fiction

Fear Before The March Of Flames

OH MY GOD
What have we learned?
OH MY GOD
We're doomed from the startIt's time to admit we're wrong and move on
Kick our habits, self improvement
Is anyone getting nervous?We should all be afraid to dieI don't care as long as we, as long as we get there
Get thereFought, you fought and you got what you want out of me
Caught, don't get caught, you'll be fucked if you know what I meanAre you scared you can't tell me what your life's about?
Thought provoking, it's all we need.
It's all we need.THE FEAR OF GOD IN US
IN ALL OF US
