

Intro

RHODES

Under my skin
Everything all in my head
Take me home
All my love, endlessly take my heart
All of my soul I don't wanna fade away
Am I going to make you happy?
I don't want to fade away
Am I going to make you happy? All my love, endlessly take my heart
Take me home I don't wanna fade away
Am I going to make you happy?
I don't want to fade away
Am I going to make you happy? I need you so
I need you so I don't wanna fade away
Am I going to make you happy?
