

Queen Of Sorrow

Black Label Society

Hey now, I've stepped into the black
I say, hey now, I won't be comin' back
I say, hey now, I've left it all behind
I say, hey now, take a look but you won't find, no
Step outside this world where I'll be free, yeah
Step outside this world where I can see, oh
The queen of sorrow and all this hell within
Oh, I close my eyes and sit back as I watch my end begin
Hey now, void of sight and sound
I say, hey now, the spiral always down
I say, hey now, there ain't no comin' back
I say, hey now, I've stepped into the black, now
Step outside this world where I'll be free, yeah
Step outside this world where I can see, oh
The queen of sorrow and all this hell within
Oh, close my eyes and sit back as I watch my end begin
Step outside this world where I'll be free, yeah
Step outside this world where I can see, oh
The queen of sorrow and all this hell within
Oh, I close my eyes and sit back as I watch my end begin
