

Love Like the Movies

The Avett Brothers

So you want to be in love like the movies
But in the movies they're not in love at all
And with a twinkle in their eyes
They're just saying their lines
And so we can't be in love like the movies

Now in the movies they make it look so perfect
And in the background they're always playing the right song
And in the ending there's always a resolution
But real life is more than just two hours long

So you want to be in love like the movies
But in the movies they're not in love at all
And with a twinkle in their eyes
They're just saying their lines
And so we can't be in love like the movies

Well you can freeze frame any moment from a movie
Or run the whole damn thing backwards from reel to reel
But I don't see one single solitary light technician
Or one single camera in this moonlit field

I don't want to be in love like the movies
Cause in the movies they're not in love at all
With a twinkle in their eyes
They're just saying their lines
So we can't be in love like the movies.

And with a twinkle in their eyes
They're just saying their lines
And so we can't be in love like the movies.

Noooooooo

We can't be in love like movies
