

# Alaska

## Sky Sailing

I was on the road despite the holiday  
The winter green day dream softly colliding  
It took all my headaches away When did I arrive?  
I don't recall ever leaving Alaska  
Why do I hate the dark when I'm alone? I was on my way to a brighter day  
I'm still chasing around  
But somehow I believe that this is home  
It's so good to be home I was on the ground  
When I recalled the day  
That my discomposure left me forever  
It swept all my troubles away When did I arrive  
I don't recall ever leaving Alaska  
Why do I hate the dark when I'm alone? I was on my way to a brighter day  
I'm still chasing around  
But somehow I believe that this is home  
It's so good to be home
