

# Mary Jane

Joe

De-stress

You might as well enjoy the drink  
There's too much rolling over in the world 2 PM, breakfast in bed

Had a long night, I was in Vegas

At the Bellagio

I had a sweet thing from a bar in place  
All in my brain, you're giving me a fever

Put it in, blew it out, body so illegal

She was so phenomenal

Get me, you're beautiful

You pull ups and say I only met er once, a little marijuana  
Money real good but money bringing me more problems

Go and do things, be my Mary Jane

Made a touch in your light, I take it away

Go with your little bit shorts, celebrate the moment

Roll you up, light you up

Show you how I own it

My Mary, my Mary, my Mary Jane

My my my Mary Jane So sexy standing in the mirror

Come a little closer, girl I wanna tell ya

Clothes off your body baby

I wanna get high off your love tonight

I want to play the naughty, can you play the last night?

Do it over naughty, be that T and thug life

Just let it rotate

To my lead, everywhere I come so I only met er once, a little marijuana

Money real good but money bringing me more problems

Go and do things, be my Mary Jane

Take my mind off the stress and the strain

Go with your little bit shorts, celebrate the moment

Roll you up, light you up

Show you how I own it

My Mary, my Mary, my Mary Jane

My my my Mary Jane I light it up and let it out slow

I'm gon measure up

Nothing beats this feeling I know

Except the greatest love

One for now and one for the road

Til I come touch er up

When this gonna end I don't know  
But now I'm in love with my slow I only met er once, a little marijuana  
Money real good but money bringing me more problems  
Go and do things, be my Mary Jane  
Take my mind off the stress and the strain  
Go with your little bit shorts, celebrate the moment  
Roll you up, light you up  
Show you how I own it  
My Mary, my Mary, my Mary Jane  
My my my my Mary Jane Light it up, pass it around  
Burn it up baby, then blow it up
