

Walk On My Dreams

Elephanz

You stay so quiet, while I'm standing,
And I'll stand all the night.
Heavy and light, my hopes is class
And my inside is so tight.
Fool, I've been to let you with
That gun in your hand for me
Cool, you can be sure I try to remain,
I'm on my knees I spread at your feet
The best part of my dreams
You'd better watch out where you walk
I hope, I hope you
Could walk the slowest,
You walk on my dreams
And I know, I know I'm
Too down to give you steams
(You'd better watch out where you walk)
I hope, I hope you
Could walk the slowest,
You walk on my dreams
There will be some others times
I should tell me but I can't
You can stomp all of my goals
Acting like an elephant. I spread at your feet
The best part of my dreams
You'd better watch out where you walk
I hope, I hope you
Could walk the slowest,
You walk on my dreams
And I know, I know I'm
Too down to give you steams
(You'd better watch out where you walk)
I hope, I hope you
Could walk the slowest,
You walk on my dreams
You were not happy at all
In the end, but I begged you
Is there anyboy here
Who could save my hopes from you. I spread at your feet
The best part of my dreams

You'd better watch out where you walk
I hope, I hope you
Could walk the slowest,
You walk on my dreams
And I know, I know I'm
Too down to give you steams
(You'd better watch out where you walk)

I hope, I hope you
Could walk the slowest,
You walk on my dreams
(You walk on my dreams)
(You walk on my dreams)
