

# Ready Set Go

## Outasight

Let's go!  
Yeah, out the corner of my eye  
I see the red light and I don't slow down  
Down! Turn the one to see up ahead  
Some place, some... that I don't go 'round Another digging is this worth the time?  
And it crossed my mind, somehow it's in vain  
But I guess it's one step, and then goes the next  
Can I get a good trick so that we can change? And I remember when everyone said,  
"You can't do it, get it out your head!"  
And I remember when they said, "Don't try it!"  
It ain't gonna make it, not, not this time! Huh, I'm sorry you're wrong  
And this the moment that I choose to cease  
I used to wake up in a cold, cold sweat  
And this cold cold world, now figure that please I'm sorry this time  
I'm not waiting or holding on!  
Ready set go! Gooo, gooo, gooo  
Ready set go! Gooo, gooo, gooo In the back of my mind I stop to decide if this worth the fight  
Right, keep her talking about the little things  
When the big picture don't seem so bright!  
Right! So flip on this  
And push on all your way from the edge  
But I guess it's one step and there goes the next  
So I'm trying to get back from off that ledge! And I remember when everyone said,  
"You can't do it, get it out your head!"  
And I remember when they said, "Don't try it!"  
It ain't gonna make it, not, not this time! Uh, and I'm sorry I'm wrong  
You can drag it, next, next time  
Take a number and wait another summer  
On the back of the so called line, that's fine! I'm sorry this time  
I'm not waiting or holding on!  
Ready set go! Gooo, gooo, gooo  
Ready set go! Gooo, gooo, gooo  
Let's go! That's right, let's go! This word that we're living in it's going wrong  
Just trying to make sense and pay my rent  
Get back every cent that's ever been  
I promise to remember you now that you're gone You never know when you can possible end this  
Critics don't fall and the music don't spin  
No! The music don't spin  
No! The music don't spin

Here comes the end! Ready set go! Gooo, gooo, gooo  
Ready set go! Gooo, gooo, gooo  
Ready set go! Gooo, gooo, gooo  
Ready set go! Gooo, gooo, gooo We're about to  
When we're  
And I'm moving alone  
Ready set go! Gooo, gooo, gooo  
No time like right now  
Living up, living down  
We're moving around!
