

Nepal

USS (Ubiquitous Synergy Seeker)

On this hip trip
Trying to get a grip from my brain I rip
Government microchip
Here I am I don't understand why
Fusion of allusion equals infinite confusion but We're all the same blood
Built in the same frame
Stuck in the same mud
Cheating at the same game We're all the same nerve
Feeling the same pain
Stuck in the same curve
Rushing through the same vein When I was higher than Nepal
I must've been peaking
When you were banging on the wall
I must've been sleeping Oh pain go now
Out of my head
This place is lower than a crawl
I must've been seeking On this bleak streak
Calibrate and tweak
Shifty shadows sleek
Formaldehyde and seek Neuropeptide
Systems override
Faith is multiplied, quantified
Trust angel mechanic guide We're all the same blood
Built in the same frame
Stuck in the same mud
Cheating at the same game We're all the same nerve
Feeling the same pain
Stuck in the same curve
Rushing through the same vein When I was higher than Nepal
I must've been peaking
When you were banging on the wall
I must've been sleeping Oh pain go now
Out of my head
This place is lower than a crawl
I must've been seeking
I must've been seeking Oh pain go now
Oh pain go now If love's the apex of all religions then
Why do we kill each other like hungry pigeons brother?
This socialistic battle

White collar bred cattle
Greed riding horse back
Morals riding side saddle
When I was higher than Nepal
I must've been peaking
When you were banging on the wall
I must've been sleeping
Oh pain go now
Out of my head
This place is lower than a crawl
I must've been seeking
I must've been seeking
I must've been seeking
