Big Freeze

Mucky Pup

Do you know hurt, really know?
'Cause I see him when I wake
And he's waiting there for meCrushing down, I'm freezing
Deeper in a hole everyday
'Cause the mountain's just too bigThrough and through, it's loud and hard
Through and through
Takes no days off and no holidaysI've done my all and come up
Against my final last wall
Can't you see in these eyes?From the long, long, long winter of the big freeze
You felt it, tell me that you felt it
Tell me I'm not alone, please, please I'm not aloneIt's the big freeze, freeze, freeze
A different kind of cold
It's the big freeze, freeze, freeze
A different kind of coldDo you know hurt, really know?
'Cause I see him when I wake
And he's waiting there for meCrushing down, I'm freezing
Deeper in a hole everyday
'Cause the mountain's just too bigThrough and through, it's loud and hard
Through and through
Takes no days off and no holidaysI've done my all and come up
Against my final last wall
Can't you see in these eyes?From the long, long, long winter of the big freeze
You felt it, tell me that you felt it
Tell me I'm not alone, please, please I'm not alone'Cause it's the big freeze, freeze, freeze
A different kind of cold
It's the big freeze, freeze, freeze
A different kind of cold
