Amnesia

Justin Young

Intro:
I'm not a doctor but I
Found a cure
You are the antidote
I've been waiting for (yeah)
All of the pain from straining
To look behind
All disappeared when you opened my eyes.

Pre-Chorus:
And I would fall to pieces
But your love releases me

Chorus:
Suddenly when you
Came to me all of the
Things in my past started to fade
Into black
The weight has lifted
And all of your kisses
Give me the
Sweetest kiss of an angel baby

Verse 2:
I'm no professor
Ain't got my PH.D.
But before you I was majoring in History (Yeah)
I tried to fight it
But I hate poppin' pills
Your the prescription that I finally fill

Pre-Chorus:
And I would fall to pieces
But your love releases me

Chorus:
Suddenly when you
Came to me all of the
Things in my past started to fade
Into black

The weight has lifted
And all of your kisses
Give me the
Sweetest kiss of an angel baby

(Instrumental)

Pre-Chorus:
And I would fall to pieces
But your love releases me

Chorus:
Suddenly when you
Came to me all of the
Things in my past started to fade
Into black
The weight has lifted
And all of your kisses
Give me the
Sweetest kiss of an angel baby

Chorus mix up
