Getting Lost

White Arrows

And I try when I barely want to
And I try cause I really want you
And I know that's it's not for certain
And I know that it'll end with curtains
This time
This timeI'm getting lost in you
I'm getting lost in you
I'm getting lost in you
I'm getting lost in youAnd I want to sit beside you
And I want to teach and guide you
And I know that the sun is setting
And I know that there's no forgetting
This time
This time
