

Higher

Cajsa Siik

Verse 1:

What if a dream could tell me how
What if a minute was forever
Now I am climbing out of my mind
Now I can sense you even better

Chorus 1:

Crystals in an open sky
Lose you left to figure out
Higher

I can feel it coming down
It all makes sense when you're around

Higher

Verse 2:

I was floating on my back
Can you see what I see
Nothing is holding us back
Can you feel what I feel

Chorus 2:

Once upon a time you see
Someone told you how to be
Higher

No one told us to forget
We may love without regret
Higher That's my whole truth

(X8) Chorus 1:

Crystals in an open sky
Lose you left to figure out
Higher

I can feel it coming down
It all makes sense when you're around

Higher

Chorus 2:

Once upon a time you see
Someone told you how to be
Higher

No one told us to forget
We may love without regret

Higher

Verse 1:

What if a dream could tell me how
What if a minute was forever
Now I am climbing out of my mind
Now I can sense you even better
