Absence of Light

Testament

Life as we know is full of gloom
Oppress the masses, we'll lead to our doom
We want the right to live or die
You can't take away what we feel insideLike empty shadows afflict our brains
Envision dreams just to ease the pain
There's more to life than to satisfy
I ask myself for the reasons whyIf it were my way
I'd deliver us from this hell
If it were my wayIf it were my wayIf ever there comes a day
Renovations blown away
Realize what we've thrown awayIs there no end to this endless war
The fear of man is now what's in store
We look at life as a memory
Long live the dreams that they took from meIf it were my way
I'd deliver us from this hell
If it were my wayIf it were my way
