You're The Only Girl In The Game

Merle Haggard

What a twisted game you're playin' with the highest takes of all
Somewhere along the way the rules got change
From this narrow ledge we're walkin' and there's no way you can fall
Cause you're the only girl in the game
You're the only winner there's no way you can lose
And why I don't get out I can't explain
Any one decision you would be good news cause you're the only girl in the game
You're the only girl in the game he was not invited still he came
There can only be one loser and I already feel the pain from the only girl in the game
[steel]
You're the only girl in the game...
