## You Have Me

## **Gungor**

Out on the farthest edge There in the silence You were thereMy faith was torn to shreds Heart in the balance And You were thereAlways faithful, always good You still have me You still have my heartI thought I had seen the end Everything broken But You were there I've wandered at heaven's gates I've made my bed in hell You were there stillAlways faithful, always good You still have me You still have my heartYou have me, You have me You have my heart completely You have me, You have me You have my heart completely You have me, You have me You have my heart completely You have me, You have me You have my heartYou have me, You have me You have my heart completely You have me, You have me You have my heart completely
