Mr. Mister GummibÃ¤r

GummibÃ¤r

Come on lets get started, come on lets get started
Come on lets get started, come on lets get started

Gummy up, Google in, check for green bear
I'll tell you watcha find, I'm gonna be there
I can't miss, Mr. Mister Gummibear,
Pumping up, check it out, come on lets get started

Your turn, tweak me now, people everywhere
We're getting ready lift up to the stratosphere
No way I'd ever leave without you
Join a trip, rocket ship, we will have a party thats cool

Mister Gummibear, mister Gummibear

Lets rock this party, wake it on the internet
Dance with the green bear up until it's time for bed
They call me chubby but I'm no jelly bean
They call me crazy head, everybody scream

Just call me gummibear, don't call me Winnie Pooh
They say I'm hazy, go feet crazy but I'm really cool
I can dance and move my feet to the beat, to the beat
Call me funny bear but really I'm a gummibear

Gummy up, Google in, check for green bear
I'll tell you watcha find, I'm gonna be there
I can't miss, Mr. Mister Gummibear,
Pumping up, check it out, come on lets get started

Your turn, tweak me now, people everywhere
We're getting ready lift up to the stratosphere
No way I'd ever leave without you
Join a trip, rocket ship, we will have a party thats cool

Boom boom we rock it boom mister gummibear
Boom boom we rock it boom mister funny bear
Boom boom we rock it boom mister green bear
Rock it, rock it, rock it, rock it, rock it like this

Mister Gummibear, mister Gummibear
Rock it, rock it, rock it, rock it, rock it like this

Gummy up, Google in, check for green bear
I'll tell you watcha find, I'm gonna be there
I can't miss, Mr. Mister Gummibear,
Pumping up, check it out, come on lets get started
