

Grandbag's Funeral

Happy Mondays

Bring all the family
Take all the family
Let all the family
See all the family Bring all the family out to the holiday
While we're all still around
Show you what the cats been doing
And how he gets around You can't wake him
He's not sleeping
He never comes down Bring all the family, out to the holiday
While we're all still in town
We show you what's the cats been doing
And how he gets around Skin up lady, lady skin up
Now that we live together
We both get fucked up Bring all the family
Out to the funeral
Bring all the family
Out to the funeral It's only Grandpa that's died
He really couldn't see what you're doing an'
All his friends were white Skin up lady, lady roll up
Now that we live together
We both get good luck Bring all the family
Take all the family
Bring all the family
See all the family Skin up lady, lady roll up
Skin up lady, lady roll up
