

Out Here All Night

Damone

Summer's coming too fast
Winter's been here too long
If we keep wasting our days

Pretty soon they'll be goneOh yeah, yeah, yeahI've been out here all night

I've been out here all day
With my eyes open wide
Hoping that you will sayEverything is all right
We can be happy too
If you look out for me

The way I looked out for youPeople take what they need

Then they tell you, "Get lost"
Kindly leading you on

While they're ripping you offOh yeah, yeah, yeahI've been out here all night

I've been out here all day
With my eyes open wide

Hoping that you will sayEverything is all right
We can be happy too
If you look out for me

The way I looked out for youIf I sounded insecure

It's because I wasn't sure
You were really thereI've been out here all night
I've been out here all day
With my eyes open wide

Hoping that you will sayEverything is all right
We can be happy too
If you look out for me

The way I looked out for youYou can stand there all night

You can stand there all day
You can do what you like
It doesn't matter to meOh yeah, yeah, yeah
