As If You Know Me

Edgewater

I collect myself from falling down
Disengage to rearrange myself without your fate
And it rains
And it rains
You say you know who I am
You found the worst in me
You find the way that I walk, talk
Such an evil seed
The sudden change that we make
We will find peace
The eyes we slash, the teeth we sink

It's called identity
And I wonder, wonder
What it is that you had said
So just bite your tongue
Save it for somebody else
Spit me out and turn away
'Cause I have better ways to spend my days
[repeats]As if you know me
