

# I Constantly Thank God for Esteban

## Panic! at the Disco

Give us this day our daily dose of faux affliction  
Forgive our sins forged at the pulpit  
With forked tongues selling faux sermons  
Because I am a new wave gospel sharp  
And you'll be thy witness  
So gentlemen, if you're gonna preach  
For God sakes preach with convictionStrike up the band  
Oh, the conductor is beckoning  
Come, congregation, and let's sing it like you mean it  
No, don't you get it, don't you get it, now  
Don't you moveStrike up the band  
Oh, the conductor is beckoning  
Come, congregation, and let's sing it like you mean it  
No, don't you get it, don't you get it now  
Don't you moveJust stay where I can see you  
Douse the lightsWe sure are in for a show tonightIn this little number we are graced by two displays of character  
We've got the gunslinger extraordinaire  
Walking contradiction  
And I for one can see no blood from the hearts  
And the wrists you allegedly slit  
And I for one won't stand for this  
If this scene were a parish you'd all be condemnedStrike up the band  
Oh, the conductor is beckoning  
Come, congregation, and let's sing it like you mean it  
No, don't you get it, don't you get it now  
Don't you moveStrike up the band  
Oh, the conductor is beckoning  
Come, congregation, and let's sing it like you mean it  
No, don't you get it, don't you get it?  
Don't you, don't you moveJust stay where I can see you  
Douse the lights  
We sure are in for a show tonight  
Just stay where I can see you  
Douse the lights  
We sure are in for a show tonight  
Stay where I can see you  
Douse the lightsStrike up the band  
Oh, the conductor is beckoning  
Come, congregation, and let's sing it like you mean it

No, don't you get it, don't you get it now  
Don't you moveStrike up the band  
Oh, the conductor is beckoning  
Come, congregation, and let's sing it like you mean it  
No, don't you get it, don't you get it now  
Don't you move  
Don't you move  
Don't you move  
Strike up the band
