Let It Go

Glenn Hughes

So long ago from another time, I lost all control
The devil in the wilderness put his hands around my soul
He took me down to the blood red fountain
Water tastes like wine and it tastes like wine, like wineThen I saw myself in the broken glass
I was never gonna last, let it go
Then I heard a voice inside my head
"Soon I will be gone", let it goSt. Peter stood beside me
And I could not let it goFor 30 days and 30 nights the sand did turn to snow
And somehow God did show his face but how was I to know
It's all in my past, in my past
It's all in my pastThen I saw myself in the broken glass
I was never gonna last, let it go
Then I heard a voice inside my head
"Soon I will be gone", let it goSt. Peter stood beside me
And I could not let it goSo long ago from another time, I lost all control
The devil in the wilderness put his hands around my soul
It's all in my pastLet it go, let it go
Let it go, let it go
Let it, let it go
