Bird Of Prey

Editors

I can see that look that sends me where
You try to move in closer if you dare
So I will sit and play my waiting game
And for a while I know she'll do the same
Oh, no
Watches like an eagle from its tree
Then like a bird of prey she captures me
But I am older and more wise than you
Bird of prey, straight into me, you fool
Oh, no
Now every time I try to set her free
I'm glad to say she comes right back to me
But if I knew she didn't want to stay
I wouldn't try to keep that lovely bird of prey
